## Chapter 1

## Introduction

#### 1.1 Background

Broad overview.

#### 1.1.1 Specific background

Specific text.

#### Chapter 2

#### Long paper 1 chapter title

#### 2.1 Abstract

Concise introduction, motivation, results, and conclusions.

#### 2.2 Introduction

Examples of citations: we knew X from [1] and Y from [2].

#### 2.3 Results

#### 2.3.1 Result 1

Here is a reference to Figure 2.1. We found bacteria, roughly 5  $\mu$ m in length, that live at 95°C for roughly 90% of the year. More symbols: \$, #, 10<sup>5</sup>,  $\alpha$ ,  $\beta$ ,  $\gamma$ ,  $\kappa$ , **bold**, *italics*. Quotation marks are "correctly oriented" thanks to the csquotes package. Now an inline equation:  $E = mc^2$ . Now a reference to Equation 2.1:

$$d_t = \frac{c - pn_t}{n_t} \tag{2.1}$$

There will be more text here.

Figure 2.1: Long figure caption text that explains everything.

#### 2.3.2 Result 2

We discovered something else. Here is a reference to Table 2.1.

#### 2.4 Conclusions

The end of the paper.

## Chapter 3

# **Concluding Remarks**

I conclude...
